Clarification on Number of Non-Teaching Staff for NAAC Assessment

This is to provide clarification regarding the data on the number of non-teaching staff submitted in the Institutional Information for Quality Assessment (IIQA) for our college's NAAC assessment. As stated in the IIQA, our college reported a total of 12 non-teaching staff members, out of whom 2 members are employed on a casual basis and are purely contractual in nature. Hence, for the purpose of assessment, only the 10 full-time non-teaching staff members were considered.

Furthermore, regarding the number of non-teaching staff members over the last five academic years, please find below the breakdown of the number of full-time non-teaching staff members employed at our college:

For the academic years 2018-19: 7 staff members
For the academic years 2019-20: 7 staff members
For the academic years 2020-21: 8 staff members
For the academic years 2021-22: 8 staff members
For the academic year 2022-23: 10 staff members

We request your kind cooperation in considering the relevant data accordingly and oblige.
