6. Number of participants: **22**
7. Venue: **Purbasthali College e-Lyceum YouTube Channel**
8. Name of resource person: **Dr. Prasanta Sarkar, BMOH, Purbasthali BPHC**

### **Introduction:**

A One-day webinar on “Awareness and Prevention of Dengue and Covid-19” was organized by IQAC, Purbasthali College on August 20, 2020 at 7.00 pm via YouTube .

### **Objectives:**

- To raise awareness about the transmission, symptoms, and preventive measures of Dengue fever.
- To educate participants about the current status of the Covid-19 pandemic and effective prevention strategies.
- To provide a platform for experts to discuss the intersection between Dengue and Covid-19 and how to address both diseases concurrently.

### **Key Discussions:**

The webinar began with an overview of Dengue fever and Covid-19, highlighting their modes of transmission, common symptoms, and the importance of early detection. The Speaker emphasized the significance of preventive measures such as vector control for Dengue and vaccination, mask-wearing, hand hygiene, and social distancing for Covid-19. The discussion focused on the role of community

participation in preventing Dengue and Covid-19, including awareness campaigns, environmental sanitation, and collaboration with local health authorities. The challenges faced by healthcare systems in managing both Dengue and Covid-19 cases simultaneously, including resource allocation, diagnostic testing, and capacity building, was also discussed. The webinar highlighted ongoing research efforts aimed at developing new diagnostic tools, vaccines, and treatment modalities for Dengue and Covid-19.

**Outcome:**

- Increased awareness among participants about the transmission, symptoms, and preventive measures of Dengue fever and Covid-19.
- Enhanced understanding of the importance of community engagement and proactive measures in controlling both diseases.
- Identification of key challenges and opportunities for addressing Dengue and Covid-19 concurrently.

**Conclusion:**

The webinar on "Awareness and Prevention of Dengue and Covid-19" provided a valuable platform for participants to learn about the dual challenges posed by these infectious diseases and the importance of comprehensive prevention strategies. By fostering collaboration and knowledge sharing, the webinar aimed to contribute to efforts aimed at controlling the spread of Dengue and Covid-19 and promoting public health.
